# Conservation-Based Alternatives to meet Phosphorus Discharge Rules

Wednesday, August 1  
8:30 a.m. – 1:30 p.m. (lunch included)  
Town Bank of Darlington  
15815 Hwy 81, Darlington, WI

## Cost-Effective Solutions

Site-based engineering and equipment is no longer the only option for the more stringent phosphorus discharge limits now being mandated. Learn about innovative and cost-effective strategies like adaptive management, trading, multi-discharger variances and individual variances.

## Network of Support

Meet the people and groups who can help guide you through your evaluation of conservation-based alternatives for WPDES permit compliance. This event is sponsored by Clean Wisconsin and Southwest Badger RC&D. Lunch provided by MSA and Town & Country Engineering.

Lunch will be provided. RSVP by July 30. For more information, visit
